Opis

The company „Jelsingrad“ was founded in 1937. and during its existence, it specialized in the production of machine tools for metal forming, and to this day has been recognized in this domain, especially in the production of hydraulic presses for sheet metal bending, hydraulic shears and eccentric presses. The name "Jelsingrad" covers more than seventy years of successful and distinguished work in the field of metal industry, which is characterized by the exceptional quality of its products and a large number of satisfied customers, gaining therefore the trust and reputation at the market. The company now operates under the name "Novi Jelsingrad" JSC Banja Luka as a single-member joint stock company, with 100% ownership by the construction company Krajina JSC Banja Luka (www.gpkrajina.com) and employs professionals from various fields providing top quality products and the highest standards of corporate management, raising environmental and social responsibility as a priority
