MEET SUPPLIERS

Johpomek is now looking into possibilities of sourcing plastic shells and plywood parts for their chairs. The company is interested in a long-term cooperation with a manufacturer in Bosnia and Herzegovina that can deliver the following:

1) Plastic parts for chairs (please see enclosed picture) Example Picture 1-2

- Plastics required: Polyuretan (PUR), polyeten (PE), polypropen (PP).

- Size & colors: Preferably different sizes and different colors. The below measures are just an example.

- Left - width: 420, height: 420

- Middle - width: 380, height: 380

- Right - width: 330, height: 330

- Volume: Initially an order of 5,000-10,000 pieces

2) Moulded plywood parts (please see enclosed picture) Example Picture 3-4

Production of seats and backs of a chair. It is important for the Swedish manufacturer that the potential partner can process wood using compression molding technology.

- Quality: High-quality since sought since the Swedish company's products for the school environment have high demands on quality and durability.

- Wood required: The seats and backs are made of birch/beechn veneer and varying colors of laminate.

- Volume: approximately 35,000 chairs for school environment per year.

COOPERATION REQUESTED
